## History of Iapana:

Originally a Province of the UEIR, Iapana became independent on the birthday of its Founder, Emir Horus Michael I, on May 9, 2004. It is presently an Emirate, as decreed by Sultan Ahmed F. Marcaesar sometime in the late 1990s. Marcaesar was co-conqueror of the USA Federal Government in January 1993; which surrendered on Inauguration Day 1993 to “*The Supreme Eternal Sovereign-Lord*” via a psychic warfare coup. The USA became territory of the UEIR. Iapana was the first province created, one year later. Iapana was also at one time a Technocracy; as evidenced by B7 Gate-1 of Microsoft in early 2000s. The Japanese Government was investigated by the corrupt Bush II Administration during their *War on Terror* Campaign, confused because of the similarities with the *Arab Terror States* prophesized by Our Founder in his first novel in 1990. This was later relaxed; the same concept having also occurred with Japan in WW2. Iapana is *the Land of the Setting Sun*, opposite Japan – *the Land of the Rising Sun*; a green Sun with white background forms our Flag. The effect of the Lapis Elixir – the prime ingredient in “*Global Warming*” theories – supports our economy. Duatian Akhu (Angels) are the core of our Military, as are the Psychic Legions. Our present land was purchased via the Federal Government and CIA after 1994. The Emir may be appointed or via rank succession. Citizens need only read 1 book written by Our Founder and pay taxes to maintain Citizenship; foreigners must pay a tithe if they dwell for more than 1.5 months in Iapana (10% tax).
